

## **Behavioral Health Consultant / Therapist (LCSW, CMHC, LMFT) Job Posting**

### **Job Description:**

Wasatch Pediatrics is offering innovative Mental/Behavioral Health Services to patients and families in our primary care pediatric clinics as we deliver superior pediatric care. The chosen candidate will be a crucial member of the primary care team, significantly contribute to child and family wellbeing, and transform whole-health care. He/she will provide interventions to address emotional/behavioral/mental health challenges, difficulties with family or relationships, grief, stress, depression, anxiety, ADHD, anger, etc. in a dynamic, integrated medical and behavioral health setting. Full or part time position available at our Willow Creek Clinic, and part time position available at our Grow Up Great / Farmington locations.

### **Responsibilities:**

- Provide direct clinical services as part of an integrated medical and behavioral health team including;
  - Diagnostic assessments
  - Psychotherapy
  - Brief interventions
  - Treatment planning
  - Care coordination
  - Documentation
  - Crisis intervention
- Consult and collaborate frequently with Primary Care Physicians, medical staff, community partners, and families.

### **Qualifications:**

- Graduation from an accredited college or university with a Master's degree in Social Work, Marriage and Family Therapy, or Clinical Mental Health Counseling.
- Minimum licensure as a Licensed Clinical Social Worker (LCSW), Licensed Marriage and Family Therapist (LMFT), or Clinical Mental Health Counselor (CMHC) in the State of Utah.
- Efficient assessment skills and evaluation techniques.
- Expertise in multiple modes of psychotherapy for children, families, and parenting support.
- General knowledge of psychiatric and psycho-pharmaceutical treatment of behavioral health disorders.
- Solid behavior assessment, modification, and skill development abilities.
- Understanding of child developmental stages and age appropriate behavioral health development.
- Working knowledge of local behavioral health community and resources.
- Meets all accepted standards of behavioral health ethics and clinical practice.
- High level of comfort with effective consultation methods and working interactively with a care team.
- Ability to act independently, respond professionally and calmly in crisis or otherwise, communicate effectively verbally and in writing, and apply general principles to specific conditions.
